Dear AmeriHealth Caritas Pennsylvania Primary Care Provider,

AmeriHealth Caritas Pennsylvania is pleased to announce that our Quality Enhancement Program (QEP) has been renamed to PerformPlus® Total Cost of Care for Primary Care Providers (PCPs).

This name change reflects our ongoing commitment to supporting high-quality, cost-effective care for our members while better aligning the program name with its goals and structure.

Additionally, we are implementing the following updates to the 2026 PerformPlus® Total Cost of Care Program.

The Quality Performance Component will continue to consist of the following eight HEDIS® based measures:

- Child and Adolescent Well Care Visits [Total] (WCV)
- Asthma Medication Ratio
- Plan All Cause Readmission – Count of Observed/Expected Ratio
- Well Child visits in the First 30 Months of Life (ages 0-15mo)
- Lead Screening for Children
- Controlling High Blood Pressure <140/90 mm Hg
- Developmental Screening in the First Three Years of Life
- Glycemic Status Assessment for Patients with Diabetes (GSD) (<9%)

Revised Program Components:

- Minimum average panel of 150 or more members at the Taxpayer Identification Number (TIN) level (rather than at the individual group level)
- Health Equity component peer vs. peer criteria increased from 65th percentile to the 75th percentile
- Health Equity component for the Black American population has been decreased from four (4) quality measures to three (3) quality measures. For 2026, the Developmental Screening measure only applies to the Hispanic/Latino population.

Removed Program Components:

- Removal of CPT II code incentive component
