Re: Adult Vaccine Procedure Code Updates and Additions

The Department of Human Services (DHS) released Medical Assistance Bulletin (MAB) 01-22-42 to notify Providers of updates to the Medical Assistance (MA) Program Fee Schedule for adult vaccines. This bulletin makes obsolete MA Bulletin 01-22-15, 08-22-16, 09-22-14, 10-22-06, 31-22-15, 33-22-13, titled “Adult Vaccine Procedure Code Updates and Additions,” which was inadvertently issued on August 26, 2022, and had an incorrect recommended age range for the shingles vaccine.

Effective on and after August 29, 2022, AmeriHealth Caritas PA/ AmeriHealth Caritas PA CHC Providers are to utilize the codes as outlined below and the updated MA Program Fee Schedule in the MAB.

Each of the vaccines should be provided to MA beneficiaries using the procedure codes and consistent with the indications for use of each vaccine as approved by the U.S. Food and Drug Administration and current Advisory Committee on Immunization Practices for adult immunization schedules.

**New CPT codes:**

CPT Code	Code Description
90587	Dengue vaccine, quadrivalent, live, 3 dose schedule, for subcutaneous use
90626	Tick-borne encephalitis virus vaccine, inactivated; 0.25 mL dosage, for intramuscular use
90627	Tick-borne encephalitis virus vaccine, inactivated; 0.5 mL dosage, for intramuscular use
90671	Pneumococcal conjugate vaccine, 15 valent (PCV15), for intramuscular use
90677	Pneumococcal conjugate vaccine, 20 valent (PCV20), for intramuscular use
90759	Hepatitis B vaccine (HepB), 3-antigen (S, Pre-S1, Pre-S2), 10 mcg dosage, 3 dose schedule, for intramuscular use

**Expanded Ages for Adult Vaccine**

Procedure code 90750 was already on the MA Program Fee Schedule for 50 through 120 years of age prior to the implementation of the 2022 HCPCS Updates. This code has been updated to include the recommended age range and indications for use to individuals 18 through 49 years of age who are immunodeficient or immunocompromised to allow providers to bill for the administration of the vaccine to beneficiaries ages 18 through 120 years of age.

CPT Code	Code Description
90750	Zoster (shingles) vaccine (HZV), recombinant, subunit, adjuvanted, for intramuscular use
