**Re: Clarification: Continued stay coverage, review and billing reminders**

In the notice dated May 10, 2022, the billing reminder section indicated providers should bill using established revenue codes for members who are deemed to be nursing facility clinically eligible (NFCE) and are authorized for nursing facility services for day 31 and ongoing, including the day the member is determined to be NFCE Eligible.

For claim submission clarification: the claim can be submitted once authorization is approved with no need to hold the claim for the NFCE determination.

Thank you again for your participation in our network and your commitment to the care of our members. If you have any further questions, please contact your Provider Account Executive.
