Short-term Adherence – Inhaled Corticosteroid

**Purpose:** The purpose of this measure is to identify and track members who are late in filling an inhaled corticosteroid

<table>
<thead>
<tr>
<th><strong>Who is Included? (denominator)</strong></th>
<th>○ Members with claims for single and multi-ingredient products containing inhaled corticosteroids</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>What Pharmacy Claim Data is evaluated? (numerator)</strong></td>
<td>○ Members who are between 20 and 100 days past their anticipated refill date</td>
</tr>
</tbody>
</table>
| **When does the analysis occur?** | ○ Reviews claims from the previous 12 months  
○ Updated Monthly |
| **Where can I get this information?** | ○ Monthly NaviNet report updates reflect Gaps In Care for PCP practice panel membership.  
○ Quarterly printed reports sent to PCPs reflect Gaps In Care for PCP practice panel membership.  
○ Panel membership results include indicators for this Gaps In Care measure as “At Risk” |
| **Why does my member have an “At Risk” status?** | ○ Pharmacy claims show an inhaled corticosteroid is overdue for refill by 20 to 100 days. |
